PERSONAL DATA

Software Engineer with hands-on experience building full-stack web applications using React, Typescript, and modern web technologies. Focused on developing scalable, maintainable solutions across the frontend and backend, with experience working on real-world projects from concept to deployment.

Strong foundation in full-stack development, RESTful APIs, and component-driven UI design. Comfortable working in Agile environments, collaborating with cross-functional teams, and iterating quickly based on feedback.

Currently expanding expertise in software engineering best practices, system design fundamentals, and production-grade application development.

LANGUAGES SPOKEN

- Bulgarian — Native
- English — C1 (IELTS Academic, 2024)
- French — Intermediate (B1–B2)

EDUCATION

Fontys University of Applied Sciences — Eindhoven, Netherlands B.Sc. Software Engineering (AI Specialization) | Expected Graduation: July 2028

- Focus on software architecture fundamentals, clean code principles, and maintainable system design
- Coursework and projects in applied AI and machine learning, including data-driven application development
- Strong emphasis on project-based learning and real-world software engineering practices

12th Secondary School "Tsar Ivan Asen II" — Sofia, Bulgaria
High School Diploma
Graduated: 2024

TECHNOLOGY SKILLS

- **Fron-end** — HTML5, CSS3, Tailwind CSS, Bootstrap, Typescript, React, Next.js, Vue.js, Angular
- **Back-end** — Node.js, Express.js, FastAPI, ASP.NET Core, REST APIs, OpenAPI (Swagger)
- **Databases** — MySQL, PostgreSQL, MongoDB, MSSQL, Redis, Elasticsearch
- **Testing** — Jest, Mocha, Postman (API Testing)
- **DevOps & Integrations** — Docker, GitHub Actions (CI/CD)

SOFT SKILLS

- Clear technical communication
- Problem-solving and analytical thinking
- Adaptability in fast-paced environments
- Team collaboration in Agile settings

TECH EDUCATION & WORK HIGHLIGHTS

Full-Stack Web Development | SoftUni (Software University)

- Intensive full-stack curriculum covering frontend, backend, and databases
- Graduated with a final assessment score of 6.00 across all modules

Junior Software Engineer — Neterra, Sofia, Bulgaria
(**Certificate**) | 22.05.2024 - 15.08.2024

- Developed and maintained full-stack web applications using React and modern Typescript frameworks
- Collaborated with cross-functional teams to deliver production-ready digital solutions
- Applied software engineering best practices to improve code quality, maintainability, and performance
- Contributed to the successful delivery and launch of multiple internal and client-facing projects

CERTIFICATES

- Multiple certifications in HTML, CSS, JavaScript, React, Backend Development, and DevOps fundamentals
- Full list and supporting documentation available via personal portfolio
